

Aster Global Careers

We are seeking professionals to join our team. We are especially interested in new team members who can help increase our capacity in the AFOLU sector and extend our accreditation scope. Aster Global's current ANAB accreditation includes:

Project Level GHG Emissions, Reductions, and Removals

- 1 – GHG emission reductions from fuel combustion*
- 2 – GHG emission reductions from industrial processes (non-combustion, chemical reaction, fugitive and other)*
- 3 – Land Use and Forestry
- 4 – Carbon Capture and Storage *
- 5 – Livestock *
- 6 – Waste Handling and Disposal*

Organizational Level GHG Emissions Inventory Verification

- Group 1 – General
- Group 2 – Manufacturing
- Group 3 – Power Generation
- Group 5 – Mining and Mineral Production
- Group 6 – Metals Production
- Group 7 – Chemical Production
- Group 8 – Oil and Gas Extraction, Production, and Refining including Petrochemicals
- Group 9 – Waste

*Aster Global is currently under scope extension for these sector groups and is actively seeking project validations/verifications that would allow accreditation witness.

If you are interested or experienced in the work of an accredited third-party validation/verification body we encourage you speak with us to learn more. Please email your interest and resume to nhammer@asterglobal.com.

Company Overview

Aster Global Environmental Solutions, Inc. (Aster Global) is an industry-leading, accredited validation and verification body providing quality services to organizations around the World. We specialize in:

- Independent GHG Offset Project validation and verification
- Greenhouse Gas Emissions Reporting Verifications
- AFOLU (Forestry, ALM, Blue Carbon, etc.)
- Ecosystem Services
- Sustainability
- Corporate Social Responsibility
- CORSIA

We maintain our position on the forefront of these emerging markets by continually working with forward-thinking clients and seeking out new projects. Our continual drive to understand the intricacies of the rapidly changing ecosystem services, sustainability and greenhouse gas emissions/offsets markets allows us to provide expert advice and proven services to our diverse clientele.

From the small-farmer or forest service management company to the largest forest landowners and industrial companies in the world, and from entrepreneurs forging new technologies in carbon sequestration to Municipal, County, State, and National governments, Aster Global provides services to a broad array of commercial, governmental, and social organizations seeking to create creditable reductions, offset credits, and sustainable products.

Our Core Values

- **Principled**
- **Industry Leading**
- **Resourceful**
- **Collaborative**
- **Adaptive**
- **Culturally Sensitive**

These core values are applied every day on every project and serve as the guiding principles for our entire team.
